v. 1.2 -16/7/13

CD Flexipak 6 Panel.

This specification is to scale and may be used as a template.

Follow all measurements exactly.
If in doubt, please contact your customer service representative.
Failure to follow these specifications may delay your job.

LEGEND:

- Artwork area (keep text and important graphics 3mm from trim and fold lines).
- Bleed area (allow background colour / image to bleed 5mm past cutter lines).
- Non-print area - larger images / graphics must be masked (create clipping mask).
- Cutter (forme cut) Leave this layer visible. The "Cutter" layer must stay on top of the "Art" layer to help you with the placement of your art. These lines will be removed by the printers during print.

This file should be used as a template in Illustrator. Place/Create your art on the "art" Layer. The "Cutter" layer is for printing purposes and must remain as is.

Please delete the layer named: "Delete this layer" before supplying art.
Art created in this template can be saved as "Press Quality" PDF or an EPS file with all type converted to outlines and linked images embedded.

Please ensure your art is CMYK colour and images are all 300dpi.
